Hey,

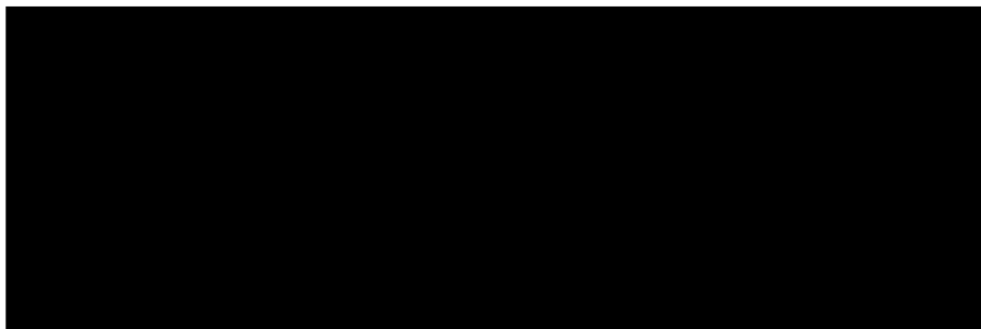

I want to say "thanks" for taking the time to grab my report on how to get listing leads contacting you each day, on auto-pilot, so you can focus your time on doing the things that bring in money. That report is on its way to your email and should be there in 10 minutes.

My name is {YOUR NAME} and I've been creating and perfecting a brand new lead-attracting system for realtors... and I'd love to show it to you.

Can you imagine how much free time you'd have if you didn't have to do any cold calling, prospecting, mailing, or other marketing that takes time, effort, and money. Believe me, there's a much better way to get listing leads. I'll show you how to reach dozens of potential listing prospects each and every day... *and often times for pennies on the dollar!*

NO cold calling, prospecting, mailing, or other marketing that takes time, effort, and money.

Picture this... dozens of potential listing prospects reaching out and contacting you each and every day. I'm talking potential prospects who live in the neighborhoods you want to get listings in... but you do it without chasing after them.

5. You get the 3 follow up emails to send out after a real estate agent opts in to get the free report. The emails gently presell your ability to send them leads... and shows them why paying you each month for leads can speed up their own R.O.I.

In that report, I literally show you how
I'm able to attract highly targeted and
motivated listing leads for you.

Look, if there's one thing I know for sure, after
talking with many of my friends and colleagues
who are realtors... is that it can get TIRING
chasing after leads all the time.

But, just imagine for a minute that you DID'T.

What if you DON'T have to spend hours cold calling,
or sending out postcards, placing expensive print
ads in the paper, or any of that ineffective stuff?

And now, I'd love to help you too.

With Facebook ads, I can target the location you want
listings in, the income level you want clients at, and
many other things you just can't do with traditional
prospecting.
