

FREE Video Presentation Reveals How to Makes Anywhere from \$500 to \$5,000 a Day... Working an Hour A Day from Home... By Tapping into a Money Source 20 Times Bigger than the Stock Market!

(Start of video script)

Hi... my name is Ezekiel and in the next few minutes I'm going to teach you how I make anywhere from 1% to 5% a day or MORE... simply by following a money-making secret I've NEVER revealed to anyone before.

And, if you watch this entire video... which I promise won't be up for long... I'll reveal THE "Holy Grail" of making money online... one in which there's NO way to lose money!

Anyone who follows my method can earn a six-figure (or more) annual income spending just an hour or two a day... from anywhere in the world.

So, watch this short video until the end if you never want to worry about money again.

Just a quick warning, though. I don't know how long this video will be up. I'm giving away a LOT of free, valuable information and plan on using this video as part of a paid training course I'll sell in the very near future.

So please, watch this video now while it's still online and still free.

Look, let's get real for a second. For over 5 years now... we've been on some shaky economic ground. There are a LOT of people still out of work and jobless claims remain high.

But honestly, I don't know why people even put up with having their fate determined by someone ELSE.

There are FAR too many hard-working folks who spend years working for bosses who don't appreciate them. And or what? Just to earn a tiny paycheck that barely covers their bills?

Well, I'm going to show you a better way...a way to live life on YOUR terms. It's a way to have all the money you need, where you can work when you want, where you want, and enjoy all the free time you want.

No more alarm clock, no more boss, no more stress about being fired.

While others are slaving away for bosses... chained to their desks in a tiny cubicle... you're spending time with your kids, playing golf every day, and really enjoying your life.

You can go to the movies at noon if you want. And before noon, you've already made a nice day's sum. Whether it's jewelry for your wife or a new car for your son... you have more than enough money to buy anything you want.

Does this sound like the kind of life for you? If so, I'm going to show you how.

Hi, my name is Ezekiel Chew and I'm the founder of Asia Forex Mentor. These days, I'm a full-time Forex trader and Forex fund manager in charge of managing millions.

I have over 10 years of experience trading in the Forex markets. Even though I'm financially secure and even retired now at the age of 30, *I know what it's like to struggle financially.*

When I was 14... my dad lost all of our money and went bankrupt after following a stock tip he got from a friend.

That was really hard on us since my dad was the only provider. Not only did we have to sell our house... it wiped out our entire savings.

For years... we lived barely making ends meet. Well, that was all it took for me to realize I NEVER wanted to live like this again.

I started going to the library to research what got us in trouble – stocks. And soon, I was fascinated by the stock market.

But I remembered Dad telling me to stay away from stocks because he didn't want me to struggle like he did.

So I began researching other investments such as mutual funds, commodities, stock options and warrants.

Eventually I discovered something that would change my life... Forex. I really liked it because it seemed like a “no-lose” kind of investment.

If the trade went up, you win and if went goes down, you win. It seemed like anyone could do it and win most of the time.

Because of the sheer potential of this market, I spent years reading and researching Forex trading. I went to seminars and practiced trading on a virtual account.

I studied all the strategies and systems I could find. I tried and failed more times than I could count.

After 3 years of constant trial and error... I eventually found a legal loophole in the Forex trading system. It was a SURE WIN method I created, one that let me profit EVERY day.

I first tested it with a small capital of \$10,000 and watched it grow 50% in a month.

Once I confirmed my method worked and verified the results with a live account... I put my main trading funds in. It beat all of my previous trading records. With reinvesting my profits and with compounding... the next month it grew another 50%.

Soon it became \$23,500 in 2 months. I kept trying new things and testing out bigger amounts and the money kept growing.

It took me 42 months and a lot of trial and error, but I earned my first million dollars in Forex. All those months of being on my computer for 18 hours a day finally paid off.

I started from scratch, but by reinvesting my profits and with compounding, I made a fortune. It was tough... but I kept going and 42 months later... I was able to retire.

That's right... at age 25... I retired from "9 to 5" work. I've since retired 3 times now and just turned 30 years of age.

During my first retirement, I was able to pay off my debts. I went out and bought the car of my dreams as well as my retirement home by the beach in New Zealand.

But even while I was enjoying this success... something just didn't seem right. I didn't notice it right away because I had always been broke and looking from the outside.

But now that I had made it big and was on the inside... it seemed that ONLY the rich bankers were making the BIG money. The regular, hard-working folks got the leftovers from this giant pile of money known as Forex.

Yes, the top institutions, banks, and firms kept the Forex goldmine all to themselves. I'm not exaggerating when I say it's a source of money that's 20 times bigger than the stock market and WAY easier to make money from.

Needless to say, since my Dad lost everything in the stock market... I felt uncomfortable with this money source being kept from regular folks.

I just couldn't stand the fact that the big bankers and investment firms were making big money while the small guy was making peanuts.

It wasn't just that this huge pile of money was being hidden from regular, average folks... it was that the banks, institutions, and traders on the inside were making big profits each day.

Some were making six figures in minutes!

It was at that time I decided I was going to do something about it... and give back to people like my Dad, who had lost everything in the stock market.

I was going to show others how to access this hidden source of money that was being secretly guarded.

Look, almost ALL of the big investment banks, financial institutions, and trading firms don't want you or other regular folks knowing about this easy way to get cash out of this source of money.

But I'm tired of watching hard-working folks continue to get the left overs while the bankers make the big bucks.

I want to show you how to tap into Forex to make a lot of money too.

This is something I feel I'm MEANT to do, to give back to those folks like my Dad, who lost everything because of stocks.

Helping OTHERS get wealthy just as easy as the big bankers is why I'm going to share this easy method of making money with you.

After all... Forex is the only vehicle out there that's able to make such huge returns and profits.

Once you tap into this money source like I'll show you... it's like having an ATM machine that *puts* quick and easy cash in your hands right from home.

I'm able to live a quiet, stress-free life using the same information I'm about to hand you.

I wake up when I want, work when I want, and have more free time than I know what to do with. I don't worry about alarm clocks, bosses, commutes, or anything like that.

I've left that stress behind. Even when I'm "working", I'm home with my family nearby.

Sure, if I wanted to, I could make a lot more money. But I enjoy having free time; it's not just about money for me.

I'll gladly make 1% to 5% a day in about an hour each day from home if I can spend the rest of my day hanging out with my family.

While others are stuck working inside some hot, stuffy office, I get to spend as much time as I want with my kids... watching them grow.

I bring them to school, I have lunch with my wife anytime I want, and meet friends for lunch, golf, or a movie.

Does this sound anything like the kind of life you'd like? You may not believe this, but you CAN. I know because I've done it *and I'm no different than you.*

My friends and family think I've retired because they never see me working... and they're right. Well, sort of. Retirement to me was boring...so I couldn't do it for long.

In some ways, I'm still retired. I decide how my days will be spent. But no matter what I do, I'm still making money.

Imagine being financially free so you never have to worry about money again. Or having more time to spend with your family... never having to worry about a job or some boss.

Well, those who know about Forex... the insiders who have the RIGHT knowledge... can become financially free like I have.

In other words, those "in the know" tend to win while those who are "in the dark" tend to lose.

That's why Wall Street insiders keep this hidden from you! They need YOU, the outsiders, to lose in order for them to win and make money!

That's how the game is played... one side wins while the other side loses. So then why not just play a totally different game with different rules?

The biggest problem most investors have is... they do exactly what so-called “financial planners” tell you to do: “Hold on to your stocks for the long term”.

Well, what happened in 2008? That’s right... those who did saw most of their savings dwindle away.

But guess what... while you gave your hard-earned money to brokers to put into the stock market... the investment banks, brokers, and trading firms went to where the REAL, consistent money is made.

And it’s not the stock market. While you’re giving your broker money to put in the stock market, they’re making their money in Forex!

Again, Forex is where the big profits are! This money-source is 20 times bigger than the American stock market! Can you imagine... 20 times more trading than the stock market!

Since this market is 20 times bigger than the stock market... it’s one of the fastest, easiest, and most lucrative ways to make large amounts of cash.

And here's the thing: almost all regular, average folks don't know about it or how to get involved in it.

That's why I'm upset that this market has been kept hidden from you by big investment banks, institutions, and trading firms.

There's absolutely no reason why you should be kept unaware of this hidden pile of cash.

I can show you exactly how to make 5% a day like I do...quickly and easily, from home, in part time hours. Even my students make between 1 to 3% a day when they start.

You'll see why this is a license to print money. Imagine making a few hundred dollars a day... right from home. I'm not going to promise you'll be a millionaire.

Look, the key is getting rich SLOWLY by making small gains as often as you want.

Those with a "get-rich-quick" mentality are the ones who lose it all. To minimize risk and increase the chances of making money... go for small, steady gains consistently.

As you become more confident and you have a lot of smaller wins under your belt, you'll be able to trade with larger amounts. THAT'S where the real money happens!

Even if you make JUST 5% a month... that's 60% a year! No other investment makes that! *Your average bank CD gives you 2%.*

With a starting capital of \$10,000 and a Return of just 5% a month...let's see how much it can grow using my money-making secret...

1st year: \$16,000
2nd year: \$25,600
3rd year: \$40,960
4th year: \$65,536
5th year: \$104,858
6th year: \$167,773
7th year: \$268,437
8th year: \$429,500
9th year: \$687,200
10th year: \$1,099,520

As you can see from that table above... in just 10 years at a conservative ROI of 5% a month, you can turn \$10,000 into ONE MILLION DOLLARS.

I'm not including monthly or daily compounding!

But again, it takes a little time... this isn't some get-rich-quick scheme. It's a real method to create a consistent income for as long as you want. When you uncover this powerful secret... it's like having your own ATM machine.

As long as currencies fluctuate up OR down... you'll make money. By capturing just a small part of that movement, you can make consistent profits every day. In other words, this allows you to grab small, safe profits with less risk.

Making 1% to 5% a day is a **safer, quicker and simpler method**. Making money from this is so easy...nobody should be missing out on it.

Unlike so many strategies that make too many demands of your time, my system is designed to let you profit from Forex in an hour or two.

You don't need to be a financial pro to understand this. Having used this approach myself every day for the past 10 years, I can honestly say **ANYBODY** can do this.

Now, if you already know a thing or two about Forex, you're probably wondering what exactly makes this different.

Like I said – my method is based on years of personal study, research and testing. This is literally my “ultimate” secret... I've NEVER taught this secret before.

I call it my “ultimate money maker” because it's the same method I use when trading my personal funds AND my fund management.

This is the “Holy Grail” of making money with Forex because there’s no way to lose money. That’s right, there’s ZERO risk!

Regardless of which way the market moves... you profit. There’s no way to lose money.

That's why it is so rare and so powerful. Even though I could probably charge millions to the largest institutions... I'm doing this for my Dad and all the regular people who are being kept out of the loop!

I want YOU to be able to use it to make life-changing money! No more sleepless nights worrying that your money is gone because your stocks took a dive.

No more being worried that your retirement fund or pension plan is gone because of a recessions or a poor economy.

What’s more, you can get started with very little capital. Even if you have no knowledge about Forex... using my system you can begin with as little as \$200!

So, if you’re ready, I’d now like to take YOU along for a VERY profitable ride by teaching you how you can make an average of 1% to 5% each and every day, in about an hour or two a day, right from home.

This is the exact same Forex trading system I use for my fund management... the same one I use to manage millions... and the exact system I use for my personal funds.

I teach people how to trade, how to read the market, and all of those things... but this is my real money making secret ***that I've never shared before.***

And just to make sure it's foolproof and will work for anyone who uses it, I decided to put it to the test back in 2012.

I hand-selected 10 people and I shared this same money-making secret with them. They ranged from newbies to experienced traders.

I taught them my secret over a three-day event. They had to swear to secrecy and sign a non-disclosure agreement. They were amazed how simple yet profitable it was.

At the end of the trades , we will still win. It will make us totally free of emotions.

It is like a Casino, at the end of the day Casino always wins (You talked in Price Action Video, under the topic of Probability.) This strategy can also be considered as a holy grail.

How we are like Casino owners, we will always win at the ends of the days. Understand that we still have to find good Quality trades so that

Lot size arrangement is fantastic. I had to try very hard to have understood it.

I cannot find a word to say how brilliant you are.

I believe we are becoming financially free very very soon. I can retire without any worry within a few months as planned previously.

You have had very good heart to teach us this kind of strategy.

Thank you very much, Ezekiel, May God Bless you.

Best Regards,

Faing Soe

"I began trading about a year ago because I saw the FX Market as a vehicle to provide the income that would free me from employment and to provide a better life for my family. However, I recognised that I would not be profitable unless I gained the correct education and skills from a successful Professional Trader. That is why I signed up to Ezekiel's excellent price action course. Even with a great strategy and knowledge of price action, due to emotion I achieved moderate success. I often would not strictly follow 5D rules, not let winners run and even not enter profitable trades. The 5D Strategy takes much of the emotion out of trading."

The 5D Strategy is a simple yet extremely powerful strategy, which eliminates risk. Ezekiel allowed ample time for the course and he presented the course very well, in a relaxed and friendly manner, which created great camaraderie between participants. There was ample opportunity for questions and clarifications. I am convinced that the 5D Strategy is a winner. It is just a matter of looking for setups, which happen regularly.

I was profitable immediately. With further experience with the strategy, I will accelerate my rate of return. I truly believe that once I have mastered the strategy that it will be in essence, a licence to print money.

Therefore, the 5D Strategy will make a huge impact on my family's future and allow me to make a difference to the lives of others e.g. significant contributions to charities."

I hope that is ok Ezekiel.

Regards, Wayne

Subject: 5D Brothers!

5dstrategy

Thanks Abdul, you too!

Well done Abdul - demo is a great way to get confident in a strategy

Have both usdpy & gbpacd both in nice profit - about +60 pips each

Strategy works - just need to practice and improve my skills at spotting trades

Your English is good Abdul

We are at the 1.3208 mark lets see if this EURUSD turns in the next hr ? off to finish my movie "The Tracker" and then will come back to see whats happening

With demo you will lose your judgement and money management, but good to try and test the 5D he..he.. At the moment my EUR/CAD is over 100 pips already just a few pips more to TP.

Awesome , if you combine our collective stories and trades , the message is pretty clear that 5d IS A WINNER

Will look at EUR/USD.

Its just about to trioer

And here's the great news, I'm going to do just one more webinar in which I'll reveal this same money-making secret just one more time.

It's true... I'm ***doing just one more 3-day live webinar*** that will hand you this same money-making secret that only 10 other people have EVER learned. **EZEKIEL, I'D PUT WEBINAR DATE HERE**

This information-packed LIVE webinar reveals the secret to tapping into the Forex market for consistent cash. If you're looking to earn a lot of money from the comfort of home... my webinar gives you everything you need.

See, out of all the strategies I've taught in the past, the ones I'll teach you now are THE most unique and have NEVER been taught before. This is the ONE and only time I'll reveal my ultimate secret... my ultimate money maker.

I've never revealed this money making secret before, except to the 10 people who attended my last webinar. And that was just so I could test it and make sure that anyone could use it to make money.

And I have ZERO plans of ever doing another one of these again. Ever. I'm just too busy with my own personal trading and managing my fund.

So this will webinar will most likely be the first and the last time I'm revealing this.

Again, this is the "Holy Grail" because it's the only system you'll ever find where it's impossible to lose money. That means there's no risk to you at all.

Regardless of which way the market moves, you'll only profit. You'll learn what the Forex market is all about... what you need to get started... and how to make the most money possible.

Follow my lead as I walk you through the process so you can retire from your job as soon as possible. This will be unlike any other webinar that exists.

You can sit back and relax while I walk you through exactly what I do to make 1% to 5% a day by taking cash out of the 'hidden' money-source. Soon you'll be able to make steady, automatic profits EVERY DAY.

Just attend the 3-day live webinar and follow my easy instructions. I'm going to show you what I do and how I do it. No 'theory' to go through; ***just copy me and profit!***

And remember, I use this myself every day so my goal is to help you change your life.

Like I said earlier, I don't feel it's fair the big banks and financial institutions are keeping this to themselves. I don't like the fact this has been 'hidden' from you.

So here's your chance to make money by watching me tap into the Forex profits.

Listen, the fat-cat bankers didn't get rich by losing money!

Big risks are the result of a "get rich quick" mindset, which this is NOT. The big money losers are those who don't follow a system that makes small, regular amounts of money consistently.

Again, they think "all or nothing" which is why they lose so much money by taking needless risks.

The only way you'll lose money is by NOT following my instructions! Remember, we want to win every trade and get a modest return on a daily basis.

But if you can't handle a tiny amount of risk, you'll want to stay at your regular job until you retire and hope your pension lasts. I'm confident that if you use this system properly, you'll be amazed at how low-risk it is.

And you don't have to trade every day, you can pick and choose... so it's not like a 40-hour-a-week job.

I'm a fund trader who uses this every day. The webinar will take you through the whole process in detail and demonstrate exactly what I do.

After watching me set up my own trades, you can do the same thing!

Just do what I say and copy what I do! Watch me in real time and when you're ready, follow my simple instructions and make the money you deserve.

Once you follow my system... your financial freedom is almost guaranteed. It's something you'll be able to do anytime, anywhere, in as little as an hour or so each day.

If you want, you can “retire” and travel the world. Play golf, buy new cars, start a new hobby, or just enjoy your family, friends, and life.

With the secrets you learn, you’ll NEVER have money worries again. This is literally a roadmap, a blueprint, a formula for achieving financial freedom using Forex.

This is a chance to finally live the kind of life you’ve always wanted... where you have all the freedom and money you could ever want.

Like I said, I went from being broke to a MILLION dollars in about 42 months. But these days, I can shortcut the process for you! I know it may surprise you that I’d be willing to teach you this stuff.

But honestly, it’s my way of giving back. When I first started, there was no one there to help me or show me what to do.

So I told myself that if I ever made it, I'd give back by showing others how to do it. Well, that's the main reason I'm holding this webinar. I've done incredibly well... and now, I want to help you.

If you're willing to learn the very basics of Forex, you can make a fulltime income in an hour a day from the comfort of home.

If you want to finally enjoy your freedom, do what you want, when you want... if you want to escape the rat race and daily commute... and have the freedom to wake up when you want and decide if you're going to work or not... this is for you.

This is your chance to "take back your life" from the bosses who've told you what to do for years... from the hours of your life you lost sitting in a car during rush hour commute, away from your family.

This is your chance to work from home, with your family, so you can spend more time with them and give them the kind of life you want.

But again... this isn't some "make millions overnight" scheme or "get rich quick" plan.

This is a chance to learn the Forex market that can provide you with a great yearly income for the rest of your life!

Whether you want to buy a summer beach house, a new swimming pool for your family, a new car, pay off all your bills, or just have more peace of mind and comfort knowing you're financially secure... this will do it.

It takes most people 40 years of working at their job to save up enough money to retire. I was able to do it in 3 years.

Because I live a great life, I want to give you the same inside access the big bankers and I enjoy. I will show you what to do, how to do it, and when... so you know all the steps.

What we'll be doing is making an educated prediction on whether a currency price will go up or down. When the price of one currency goes up, another one goes down.

When 'placing a trade', you're choosing the direction you expect the price to move – up or down. The actual process of placing your trade is as easy as checking your email. The trickier part is knowing which direction it will move.

I'll teach you how to get that right more often than not... And every time you do, you make money.

You don't need to know anything about Forex...you only need to know how to match. You'll learn specific pattern spotting and I'll give you the patterns. You match it on the live charts.

When you see it... you trade it. I'll give you all the specific criteria to trade. **When to trade. When not to trade.** I'll give you the lot sizes. How to calculate and how to scale it up. You'll be able to spot trades every day.

I'll show you how to differentiate good trades from average ones. You don't need to care about fundamentals or technicals.

Because of my unique strategy... you make money regardless of whether it goes up or down. Each day you match the templates I give you. I'll be showing screens and charts together while I'm speaking.

Although it all looks simple on the outside... it's using my decade of trading experience, strategies and criteria to know when to trade and when not to trade. To you... it's match and paste. It will appear simple, but it's stuff that took years of experience to figure out.

You'll have a specific system to know what to do with every step the market takes. The market will never take you by surprise again. You'll have a clear cut plan on what to do for everything.

No matter how the market moves up, down, sideways. No more worrying about emotions coming into play.

Look, for most people, playing the stock market is like gambling because there's no real system they use. If you've ever gambled, you know the emotion involved when it comes to your hard-earned money.

If there's one thing that gets in the way of making money, it's emotion. 95% of people lose money when trading because they let their emotions get in the way.

Hey, we're all humans, it's normal to feel a thrill when you make money. But fear and greed make people forget the rules and enter into trades with no decent opportunities.

My approach is designed to remove emotion from the process of trading. There's absolutely no chance for emotion to keep you chasing opportunities that don't exist.

Match the patterns, enter the trade, clear cut area on where to take profit, what to do if it turns the other way.

Everything is planned so you can close profits trade after trade, day after day, week after week, month after month, year after year.

To be a great trader who makes a lot of money, you just have to follow someone who is doing it already. Where else can you get direct access to a fund manager?

Once you know how to trade like I'll show you, it will be like having a license to print money. You can easily make between 1% and 5% a day.

Most people don't make that much in the markets... but they're also not following the right trader. They make 5% a year, if they're lucky.

But honestly, why trade for 5% a year? I trade to earn BIG money... enough to quit your job and save for retirement. 5 percent a year isn't going to do it.

You can earn between 1% and 5% a day – depending on how often you trade. Once you understand the power of Forex – you can make a 60% return, year after year.

That's not a dream... I've made as much as 100% a year. But let's start simple and work our way up. Like anything, there's a first step to take. And that's what I'll show you.

With the knowledge and skill set you learn:

1. You can be a fund manager and manage money for your clients.
2. You can trade for trading firms - When you have these skills...trading firms will start finding you when they see the results you're getting. You can trade for them and get a cut of the profits you make for them. But you can't share the system.
3. You can trade on your own in just a few minutes a day. Make enough and retire. Spend the rest of your time enjoying your family and friends
4. You can pass this skill and knowledge to your children, grandchildren, and family. But you're not allowed to teach this commercially.
5. Once you've attained the wealth you want, contribute to charities.

Here's a sample of what you'll learn...

- Find out how to profitably trade in just one hour a day or LESS. That's right... now you can make a nice chunk of money in 60 minutes, so you can enjoy the rest of your day doing what you want. Sure, if you want to trade more, I'll show you how... but no matter how long you trade for, I'll simplify it so it's simple.
- Learn about the basics of Forex trading and how to read charts like the pros do when it comes to price action and other important movements. You'll understand HOW and even WHY the market is moving up, down, or sideways. Believe me, no matter how experienced you are... I promise you'll learn new techniques!

- Discover the same exact strategy I use when it comes to trading with both my personal funds AND the million dollar funds I manage. You'll get to see what I do, step by step, no matter if it's my own personal money or my clients.

- Find out how you can automatically tap into the same professional money and risk management system I personally use... since it's incorporated into my strategy! Now you can manage your funds and protect them as well!
- Discover how to make money regardless of which way the market moves! That's right... no matter if the market moves up, down, or sideways... you'll learn how to make money from it!

- Learn a high-level Forex secret that almost no trader knows about. With this information, if you take a long position on a trade and the market reverses and goes down, I'll show you how to STILL profit! That's right... you make money no matter if it goes down or goes back up after! There's simply no way to lose money. Whichever direction it goes, you'll be able to profit trade after trade.

- I'll give you a crash course in psychology as it pertains to making money with Forex trading. Your emotions can cause you to lose money... so I'll show you how I've been able to consistently make money without any emotional involvement. That's right, since you'll have a plan for every trade you make, you'll be able to get rid of emotion that could create greed or fear... 2 of the biggest emotions that cause people to lose money when trading. When you have a perfect, step by step plan, emotions don't come into play.

- Find out about the Forex pairs I trade, how I set up my charts, the Forex broker I use, and other insider secrets that a 10 year veteran of the markets can share.
- Learn exactly how to make 1% to 5% each and every day you trade. Even if you're lazy and only want to trade once a week, I can still show you how to make 5% a month trading just 40 minutes a month or less.

- Discover the same clearly defined trading system I personally use... so you can copy it and know exactly when to enter and exit a trade for the most profit possible.

- Get a step by step trading "game plan" you can use at any time, in any circumstances. You'll know exactly what to do when the market reverses and also what to do when the market keeps trending up or down. Nothing will be left to guess, you'll know exactly what you need to do to profit in any situation.
- Find out how to trade with just a few minutes a day, without it getting in the way of your life or day job if you want to work. No matter how long you trade for, I can show you how to earn the most profit in the least amount of time.

- And most importantly, I'll reveal my #1 Forex trading secret... THE Holy grail of Forex. Once you learn it, your life changes because you can use it to quit your day job and retire like I did (if you want).

That's just a tiny sample of what you'll learn in this webinar.

EZEKIEL, I'D PUT WEBINAR DATE HERE

Like the 10 clients I helped back in 2012, you'll also need to sign a non-disclosure agreement form because you can't share, reveal or teach others what you've learned.

You can't be in the Forex teaching business and you can't have any intention of teaching it in the future.

Throughout the webinar, I'll share my experiences and show you how to apply them to the live charts. You'll be learning the complete Forex trading system needed to make money at will.

This isn't like attending a seminar where after attending it, you need to attend another to learn something else. This is a one stop shop...all-inclusive. There are only a handful of traders who are truly successful. And I feel I'm one of them.

By the way, I'm not holding back anything on this webinar. I will be revealing everything I know and all of the secrets I've learned over the last 10 years of being in the Forex market.

You can attend, learn my entire system, and know what took me 10 years to learn!

Once you've completed the first day, you'll see why it's impossible to lose money in any scenario of the market. You'll learn how to profit regardless of which direction the market is moving. In fact, you don't even need to know what money management is about.

This is a copy and paste system... so it's fool-proof.

And I'm different from the rest of the "gurus" who are ex-bankers, or ex-hedge fund managers. Many of them who were successful in their banks or firms couldn't make it with their own trading. In the banks and firms, they trade the bank's money, not theirs.

I've never worked for a bank or any other institution. I'm a self-taught Forex trader who learned how to do this from home. I know how to manage my money and how to follow the rules of trading.

The reason this is important is... I've done all of this using my own money.

See, the traders in those huge firms, they don't use their own personal money... so they don't "FEEL" the risk like I do.

The reason I'm teaching is that I've achieved quite a lot from Forex trading and I feel that my mission is to teach you how to create wealth so you can help your family.

You'll want to learn from someone who is truly successful in trading... someone who is successful enough to manage funds. Someone who is not only successful for a year or 2... but for more than a decade. Luck can make someone successful for 1 year or 2...

But only real skills can make a trader profitable for 10 years straight!

99% of ALL Forex programs on the internet or at live seminars are NOT created by traders, they're created by internet marketers.

These marketers make money from the marketing of it. They're not active traders... they don't even trade. They just create products to make money.

Over the years, I've become recognized as a highly acclaimed trader and fund manager. The ROI that I achieve yearly almost always exceeds the 100% mark that hedge fund institutions dream of.

And I don't make money from product launches or from teaching. I make money from trading. I earn more in a single trade than I do teaching. I don't have to teach. I want to teach... that's the difference. I truly want to share and give back in any way I can.

By changing your life, in turn you change the lives of the people around you.

So just remember that not all "successful Forex traders" are equal. Some make 10% a year and are considered successful.

Sure, they beat the interest rates from the banks... but 10% a year to me isn't good enough. I'll teach you how to be CONSISTENTLY profitable each and every day you trade.

If you want a big change in your income, a chance for a better life for you and your family... this is for you.

And it's not "get rich quick"... if anything, you get rich slowly. It's a predictable lifelong income if used correctly.

I hope you'll see this as an investment because I'm going to help you get money in YOUR pocket as quickly as possible.

There's no reason why you can't double your money within 30 to 60 days of attending the webinar. You'll have your very own ATM for you to use when you need it.

Just think... follow the simple instructions and in no time, you'll be able to pay off the webinar in full and have money in your pocket!

Look, you're at a turning point in your life where you can change your future and your family's future.

As I've said, this is the 'secret' the big banks don't want you to know because they use it to dip into the mountain of money which is the Forex market.

You can use what you learn to make your investment back fast... and profit right away.

How would it feel to wake up every morning, log into your account and see so much sitting there, you stop worrying about money. You can pay off debts and take the vacation of your dreams.

You can retire, relax and spend your days on the beach while everyone else keeps working.

If you miss this opportunity, it's going to be tough finding another successful trader who is willing to teach you. How many REALLY successful traders are willing to teach you?

Most successful traders don't teach. They don't have too. I feel like it's something I MUST do... because of what happened to my Dad when I was young.

This is your window of opportunity... but it's only open for 7 days. How many times have you missed an opportunity only to regret it later?

This will shortcut your learning curve by at least 10 years. And it will change your life and the lives of your loved ones.

I don't plan on holding another one of these webinars again.

This is your once in a lifetime opportunity to learn a "NEVER LOSE" trading system from a world renowned Forex fund manager and professional Trader who has been making more than 60% a year for the last 10 years.

And the only other time I held a webinar was back in 2012. The 10 webinar attendees each paid a fee of \$8,998 and pledged full secrecy.

And at the time, I told the guys that if I EVER did it again, it would be at the same price. And to be fair to them, I have to keep it at the same price.

But here's the thing, **I should be charging more, because this system is new and improved and 100 times more powerful than what I taught back then.**

See, out of all the strategies I've taught in the past, the ones I'll teach you now are THE most unique and have NEVER been taught before.

This is the ONE and only time I'll reveal my ultimate secret, my ultimate money maker. I've never revealed this to the 10 people who attended my last webinar.

Again, this is the "Holy Grail" because it's the only system you'll ever find where it's impossible to lose money. That means there's no risk to you at all.

Regardless of which way the market moves, you'll only profit.

THAT is why I was going to charge \$10,000 for those who wanted to attend this new and improved version.

After all, even \$10,000 is a small investment when you're talking about a proven system that can make you \$500 to \$5,000 a DAY!

It won't take many days like that until you make up your investment. Then, the rest is all profit!

So, even though this is the new and improved version, and it's giving away information I've never, ever revealed, I'm offering a VERY short term price reduction so I can get some feedback on this webinar.

I want to offer those who take action right away... I want to reward them for their fast action.

So instead of the regular price of \$10,000... or even charging more like I should... I've decided to keep it at the price of just \$8,998.

But just for watching this video today, I have a much better deal for you.

In fact, when you take advantage of this special offer right now, I'm going to take over \$1,000 off the price!

That means your total for taking action now is just \$7,999!

That's right... to reward those who are action takers and not talkers... I'm going to knock another \$1,000 off the already-reduced price.

So, act now and your spot on the life-changing webinar is just \$7,999.

Yes, I do understand that's a lot of money. It should be. If it's not high enough, you won't value it and won't put the time and effort in.

Not only that, but I don't want tire kickers or time wasters, I only want to work with action takers and decision makers.

You truly get what you pay for, and this is an investment that can literally set you up for life. I'm talking about something life- changing here.

Again, I understand that \$7,999 is a lot of money. But when you consider how quickly it can make you 1% to 5% a day... which could be anywhere from \$500 to \$5,000 or more each day... it's really NOT a cost, but rather an investment.

Also, I have a payment plan that will let you spread that out over 2 payments, if you like. One payment of half is due now and the other half next month before the webinar starts.

But to show you it's worth it, that it's an investment, and you can earn it back fast... I've even had students take a loan for the course... learn the information, and make enough money to pay it back within 30 to 60 days. After that, it's all profit.

You'll also get the webinar recordings and you'll have access to my personal Skype group where all the members of this webinar can share and discuss trades every day.

This is like having your very own Forex Mastermind group.

Since having a group of like-minded people to bounce ideas off from and learn from each other... this itself is worth every penny.

I charge \$1,000 an hour on Skype for consulting... but here you get me for 3 whole days!

The webinar is 3 days live. It's also on weekdays because I'll be trading on the live market so you can follow my trades. This mean you and I can actually profit on the webinar itself.

You'll also have my personal email address so you're never left without help. You'll be able to contact me at ANY time if you get stuck.

I'll be honest... if you're looking for more money and a better life, you won't find anything easier. I've done it every morning for the past 10 years and I've enjoyed the profits myself.

The fact is... I **want** you to succeed with this. I want you to make back the cost of the webinar within 60 days. That means that you've spent nothing, but rather invested your money.

With what you learn, you'll profit fast and often and make back your investment in a very short time.

Then the rest of the money is profit... forever!

You don't need experience and you don't need to understand how the charts work or any technical stuff.

Over the past few years, I've been showing ordinary people how to make a consistent income from the Forex market without ANY experience. I love getting emails from students who are living better thanks to what I've taught them.

I've designed this system to strictly limit any possible risk. And this strategy is scalable to whatever level you feel comfortable with. You can start small and work your way up. Either way, you'll profit consistently.

Even if you've tried Forex before and have been burned...if you've never traded before... all you have to do is follow my instructions. I won't just tell you the information... I'll show it to you so you see exactly what's happening so you can follow it.

Look, if you've struggled with money issues, you're not alone. I remember my Dad losing all of our savings.

We were barely able to make ends meet, so I know what it's like. But I ALSO know what it's like to enjoy a life of freedom and financial abundance.

Imagine being FREE from money worries. Imagine being able to buy anything you want.

Imagine quitting your job, traveling, and spending more time with your family. Imagine a new and improved life where YOU can decide how you'll spend your time. No longer working a job you can't stand, for a boss who makes you miserable.

This doesn't have to be a dream. This can be YOUR life. I'll show you how to quickly and simply pocket a quick and easy 1% to 5%...all before lunch.

Then spend the rest of the day with your family, or at the beach, on the golf course, or traveling. You can stay and make more, or you can be out having fun with your family. Isn't that what life is about? Doing what you want, when you want, with who you want?

Working part-time, you can bring in a fulltime income. You'll be able to enjoy more free time, make more money, and you'll love waking up without an alarm clock. You can work from anywhere you want without some boss telling you what to do.

Maybe some days you'll feel like working. Other days, you'll decide to take the day off, play golf, catch a movie, or hang out with your family. You can take time off for lunch when you want. Sleep in late if you choose. Bring your kids for an afternoon movie.

Do you think you could get used to that?

Once you know your trades are bringing in a constant income each day, you'll notice MOST of life's worries simply start to FADE away.

When you consider the potential income you can make, you'll realize you NO LONGER have to rely on social security when you're older. You'll LOVE the freedom and happiness this brings.

But here's the thing... there's only so much room on this webinar. It's not that there's only so much money in the Forex market... that's unlimited.

But there's only a certain amount of spots available on the webinar. And giving unlimited support limits the number of people I can help. There are only so many hours in the day and my priority is to help those who sign up AND still find the time to trade myself!

I hope you're one of the few to make it. If you act today, you shouldn't have a problem securing a seat. This isn't some sales trick either.

Once the doors are closed, that's it. You have a small window of opportunity at this moment so take it. Things happen for a reason and you're not here by chance.

EZEKIEL, I'D PUT WEBINAR DATE HERE

If you have a job and don't know where to invest your money for great returns... this webinar is for you.

Imagine growing your savings by 100% a year. For example, you have a savings of \$10k. At the end of the first year, you'll have \$20k. At the end of second year, you'll have \$40k. At the end of the third year, you'll have \$80k. By end of year four you have \$160k.

By year seven, you're a millionaire. I'm not promising that, but it IS possible.

If you have a job and are looking to replace your income and eventually quit, this is for you. If you're a business owner and looking for places to invest your money... this webinar is for you.

You're looking to build a business... Forex trading is a business that only needs two hours a day or less. So this webinar is for you. If you're an investor and are looking for more opportunities... this webinar is for you.

If you're not working and are looking for an income... this webinar is for you. It's not a magic pill though. The good news is, you can start with as low as \$200 and grow it from there.

You'll learn how to "Predict" where the market is going and understand why the market is going up, down or sideways. In short, you'll become a pro at reading charts. Once you've mastered it, you can apply it to ALL markets that have charts.

You can do this for the money, sure, but you can also do it for your family, your family's future... and most importantly, you can do it for YOU. You'll have your financial destiny in your own hands and you won't have to worry about layoffs.

Look, if you're at a point in your life where you're just not happy... either because of the money you're making (or not making) or you're not happy with your job, your boss, or your lack of freedom... **you need to give this a try.**

I'm willing to say that this will be THE best money you'll EVER invest on yourself!

I was able to "retire" and STILL earn more than most doctors, lawyers, or business CEOs combined. And I do it in a fraction of the time they spend on those high-stress jobs.

The truth is... ordinary folks all over the world are making anywhere from \$6,000 to \$10,000 a month in their spare time, using nothing more than their computer.

If you have a family, a mortgage, bills, and the desire to get out of the rat-race, this is THE way to provide your family with the financial security they deserve.

I should know... this has given me MORE peace of mind than anything else. Having money takes a lot of worry away. I used to toss and turn at night, worried about bills **but now I sleep like a baby.**

These days, I 'work' about an hour or two each day. Work, by the way, is from home, with my family hanging out with me. The rest of my day is spent doing what I want.

By using the same trading techniques I'll show you, you can make 1% to 5% every time- without knowing anything about 'trading'. Again, I've used this technique to make anywhere from \$500 a day, to \$5,000 a day, to more.

There are those who spend \$160,000 over 4 years to earn a college degree that keeps them in debt for most of their lives.

Think about how much a doctor or a lawyer pays to go to school. And after they graduate, they're lucky to reach \$100,000... meaning they're paying off student loans for years!

You're now on the pathway to make more money than doctors, lawyers, and CEOs... and in a fraction of the time and a fraction of the cost of what they pay.

I don't care if you're living on credit cards right now. This webinar can help create financial riches faster and easier than ANYTHING else. Never again will you be scrimping pennies to make ends meet.

Never again will you lie awake at night because of financial worries.

So here's the thing. I'm going to open this up, but there's very limited availability.

So, look below this video right now. Go ahead and click on the orange button that says "Add to Cart" to grab this program at the discounted price.

Remember, it's not just a good deal you're getting here... you're getting a proven step by step money making secret that can change your finances forever.

EZEKIEL, I'D PUT WEBINAR DATE HERE

The only way to secure your seat is to make payment before the webinar. After payment is made, you'll receive an email with full details of the event.

This life changing LIVE Forex trading webinar is rarely held. I don't hold these very often, usually less than 2 times in a year. You may see a "FULL" sign tomorrow so I urge you to sign up early.

Nothing beats being able to watch and listen to a REAL Forex trader analyze the market or a trade. You're here today for a reason...you want something MORE in life and now ***you can do something about it.***

I'm offering you a step-by-step plan to profit from Forex... and the support and guidance you need. I've been doing this for 10 years. If you want to make a profit on every single trade... this IS for you.

You'll have an experienced trader with a decade of knowledge working with you.

What's more, if you order right now... you'll also receive 2 amazingly valuable gifts, literally worth at least \$12,998... absolutely free.

Free Bonus #1: One Month of Email Help (\$299.95 value)

The webinar is set up and designed to teach you everything you need. I made sure of that. But if by chance you need any help, or have any questions after... you'll have 30 days of unlimited private email help for any questions you have.

That's 30 full days of direct, 1-on-1 access to me. There's obviously a limit to the number of emails I can answer. I can't be your pen pal who writes back and forth several times a day.

But you can send me the trades you've taken or will take, and I'll comment on them and give you my thoughts. This is like a personal coaching... having a 10-year experienced... million dollar fund manager at your call.

You can use this personal coaching for anything you need help with... whether it's advice on trades or asking any questions you may have.

Bottom line, if you need help, I'll be there for you. You'll never be left hanging. But this 1-on-1 email is limited... so join today!

Free Bonus #2: 2 Weeks of Trade Finding (\$9,999 value)

Another bonus, if you act now, will be 2 full weeks of trade finding done FOR you. That makes it even more fool-proof for you to find the most profitable trades! What this bonus allows you to do is... use me and my experience to find trades FOR you... which will be actual REAL trades you can make.

By following my trading signals, you remove the fear of unknown, the worry that you won't make a good trade, and you'll literally make the trade a no-brainer. You can use my 10 years of experience to get the right information and right trades.

This bonus alone will make you back your investment in the webinar, and MORE!

But again, it's only available on a "first come, first serve" basis. Once I get too full and can't fit any more people in, I'll have to take this bonus away.

If you hired me, in person, to consult you and find these trades for you, it would cost you close to \$10,000 because of my current coaching rate. But I really wanted this webinar to be unlike any other... so I'm including this bonus that's literally worth \$10,000.

Honestly... every trade signal I give you has the potential to make you thousands and thousands of dollars. With the 2 full weeks' worth of trade signals I'm giving you... this can not only cover the cost of the webinar... you can profit greatly just from this!

Because of my limited time and availability with this bonus... I'll have to discontinue it if I get too busy... so if you want me finding your trades for you, you'll want to order now!

You know... I'm positive this webinar will give you everything you need to become profitable with Forex. You'll soon know exactly how to earn between 1% and 5% each and every day.

I've already tested and proven it. And it has also worked for each and every person who has *seriously* applied my techniques. But even so, I want to *eliminate* all worry and risk for you. I'll let you attend this webinar at my expense!

Here's what I mean. Go ahead and sign up for this webinar right now.

After the 3 days you attend, if you're not completely thrilled and 100% satisfied with what you've learned... if you feel that it wasn't worth 10 times your investment, if you don't feel you can make back your investment and more, in a very short time... you'll receive a full and total refund.

I guess what I'm saying is... don't decide now if this is for you. **Just sign up and attend.**

If you're not thrilled with what you learn... just email me and I'll refund 100% of your purchase price. That's more than a guarantee, that's a personal promise.

So you have an important choice to make. You can keep doing what you're doing...staying frustrated with the way things are now. Think about where you'll be if you don't take action right now.

Where will you be in a month, 3 months, or a year? Most likely in the same spot you're at now. Is that what you really want?

Remember, if you keep doing the same things over and over again, you'll get the same results. Don't let this opportunity slip by.

If you're tired of not having the money or freedom you want, if you want to be free from money worries for the rest of your life, if you don't want to listen to a boss for the rest of your life... **you need this.**

I don't want you to go through what I did. It takes years of experience and a lot of blown trades to reach the stage I'm at. This is a very small investment when you consider the returns you'll get. It's hard to put a price on money, freedom and happiness.

You can give your family the life you want, and the kind of future you want to give them. You'll have more time to enjoy being with them... doing the things YOU want to do.

Today could be the turning point in your life you've been waiting for.

After all, if you're visiting this web page today, my guess is that something is missing in your life. Maybe you want to provide more for your family? Maybe you want to travel the world or you want a new car?

Maybe you want to spend more time with your family or you're looking for another income? No matter what your goals are...

Remember, I do this for a living, so I know what I'm talking about! This is your chance to live life on your own terms. You deserve this. It's important that YOU'RE happy!

The best thing to do is to act now, before you get "too busy". So go ahead and take the next step. It really will be a life-changing experience!

You can finally turn your financial situation around, once and for all. If you're ready to put the stress and frustration of bosses, commutes, and jobs behind you... and have more freedom, time, and money to enjoy... this is your chance.

If you're NOT interested in retiring from work within a very short time like I did, don't bother attending. I only want those who are DEAD serious about making money, in part time hours and from the comfort of home.

EZEKIEL, I'D PUT WEBINAR DATE HERE

I want to empower YOU to follow in my footsteps to fast retirement and a better life... so order now and get access to the "Holy Grail" of making money in the Forex market!

I'll take you on a proven path to retirement in a very short time.

Using the new and improved, more powerful system I'll give you, you can retire within a year after using it and the 'hidden' mountain of money it exploits.

So don't delay... simply click below to use the 100% safe and secure online reservation.

And remember, you have nothing to lose and no risk at all. I offer a 100% money back guarantee. If after the 3 day webinar you don't feel it was 100% worth it, you get your money back.

I look forward to helping you make this your last year of working for a boss. I'll be with you each step of the way... giving you everything need to know.

You'll soon be doing your first trade and on your way to making an incredible living. Go ahead and order now while it's fresh on your mind...

So go ahead and click on the orange button that says "add to cart" and claim your discounted price right now.

I promise, you've never seen these steps I'm about to share with you... all laid out in step by step "do this and then do that" manner.

So go ahead and take advantage of this limited time offer, while you're here. Click the "Add to Cart" button right below and let's start right now.
